The ABC for Students Program is here to help get your household set up for distance learning. The State of Alabama has committed CARES Act funding to purchase internet service for low-income households with K-12 students. Eligible households will receive an ABC for Students Voucher in the mail in coming weeks.

If you need your internet access now, give us a call.

It is our mission to make sure that every student in Alabama is able to access their education.

We're here to help.
