**PROGRAMMATIC, FISCAL AND REPORTING ASSURANCES**

The United States Department of Education (USED) has approved the application from the State of Alabama for ESSER funds under the CARES Act. The availability of funds is from 4/29/2020 to 4/29/2021. LEAs will be allowed to expend funds until 9/30/2022. Pre-award costs to the ESSER fund will be allowed for allowable cost incurred on or after March 13, 2020.

**2. Allowable Service(s) Assurance**

*The LEA Superintendent or his/her authorized representative assures or certifies that:*  
 The LEA will use ESSER funds for activities allowable under section 18003(d) of Division B of the CARES Act. The United States Department of Education does not consider the following to be an allowable use of ESSER funds, under any part of 18003: 1) subsidizing or offsetting executive salaries and benefits of individuals who are not employees of the SEA or LEAs or 2) expenditures related to state or local teacher or faculty unions or associations.

**How will the LEA determine the most important educational needs as a result of COVID-19?**

District school administrators were polled for input on needs they have encountered during the COVID19 season. Additionally, an up to date review of available school student devices was conducted. Following this, a meeting of district staff (directors and coordinators) was held to review the identified needs for schools and the district and develop a prioritized list of expenditures for CARES Act Funding. Gadsden City Schools will utilize CARES Act funding to ensure all students will receive equitable, quality instruction in the school classrooms and/or virtually using one to one devices, several on-line instructional platforms and assessment tools purchased by the district. There will also be 2 social workers, 2 mental health workers and 2 reading coaches to address the gaps resulting from COVID-19.

**How does the LEA intend to assess and address student learning gaps resulting from the disruption in educational services?**

Gadsden City Schools will utilize a day one diagnostic to assess learning gaps for all students. Once the data has been collected and reviewed teachers will develop lesson plans designed to remediate critical standards not mastered by all or most students during whole group instruction for the first 3 to 8 weeks of the school year. For students who continue to show learning gaps following initial review and remediation, RTI tier II and tier III intervention groups will be established at each school's grade level data meetings and a plan of action will be formulated for each student failing to meet proficiency standards on benchmark assessments. All schools will continue to conduct monthly data meetings and provide ongoing progress monitoring using DIBELS, STAR Renaissance, USA Test Prep, and other benchmark assessments to track student progress and provide ongoing small group and one to one intervention using evidenced based instructional resources to bridge the learning gaps.
