It is the mission of the Educators in Training Academy to motivate students who possess exemplary leadership and interpersonal skills to pursue a career related to the field of education.

Family, Career, and Community Leaders of America (FCCLA) are integral to classroom instruction in each Career and Technical Education program. CTSOs positively impact students' lives by developing their potential for leadership, personal growth, and career success. The importance of CTSOs is indicated by their inclusion in the foundational standards that are to be taught in every Education and Training course. The purpose of FCCLA is to help its members develop skills for life through character development, creative and critical thinking, interpersonal communication, practical knowledge, and career preparation.
