Policy GAN: Health and Communicable Diseases

Status: ADOPTED

Original Adopted Date: 07/10/1990 | **Last Reviewed Date:** 07/10/1990

Gadsden City Schools shall strive to protect the safety and health of children and youth in our care, as well as their families, our employees, and the general public. Staff members shall cooperate with public health authorities to promote these goals.

The evidence is overwhelming that the risk of transmitting human immuno- deficiency virus (HIV) is extremely low in school settings when current guidelines are followed. The presence of a person living with HIV infection or diagnosed with acquired immunodeficiency syndrome (AIDS) poses no significant risk to others in school, day care, or school athletic settings.

School Attendance

A student with HIV infection has the same right to attend school and receive services as any other student, and will be subject to the same rules and policies. HIV infection shall not factor into decisions concerning class assignments, privileges, or participation in any school-sponsored activity.

School authorities will determine the educational placement of a student known to be infected with HIV on a case-by-case basis by following established policies and procedures for students with chronic health problems or students with disabilities. Decision makers must consult with the student's physician and parent or guardian; respect the student's and family's privacy rights; and reassess the placement if there is a change in the student's need for accommodations or services.

School staff members will always strive to maintain a respectful school climate and not allow physical or verbal harassment of any individual or group by another individual or group. This includes taunts directed against a person living with HIV infection, a person perceived as having HIV infection, or a person associated with someone with HIV infection.

Employment

The Gadsden City Schools does not discriminate on the basis of HIV infection or association with another person with HIV infection, in accordance with the Americans with Disabilities Act of 1990. An employee with HIV infection is welcome to continue working as long as he or she is able to perform the essential functions of the position, with reasonable accommodation if necessary.

Privacy

Pupils or staff members are not required to disclose HIV infection status to anyone in the education system. HIV antibody testing is not required for any purpose.

Every employee has a duty to treat as highly confidential any knowledge or speculation concerning the HIV status of a student or other staff member. Violation of medical privacy is cause for disciplinary action, criminal prosecution, and/or personal liability for a civil suit.

No information regarding a person's HIV status will be divulged to any individual or organization without a court order or the informed, written, signed, and dated consent of the person with HIV infection (or the parent or guardian of a legal minor). The written consent must specify the name of the recipient of the information and the purpose for disclosure.

All health records, notes, and other documents that reference a person's HIV status will be kept under lock and key. Access to these confidential records is limited to those named in written permission from the person (or parent or guardian) and to emergency medical personnel. Information regarding HIV status will not be added to a student's permanent educational or health record without written consent.

Infection Control

All employees are required to consistently follow infection control guidelines in all settings and at all times, including playgrounds and school buses. Schools will operate according to the standards promulgated by the U.S.

Occupational Health and Safety Administration for the prevention of blood-borne infections. Equipment and supplies needed to apply the infection control guidelines will be maintained and kept reasonably accessible. The supervisor shall implement the precautions and investigate, correct, and report on instances of lapse.

A school staff member is expected to alert a person responsible for health and safety if a student's health condition or behavior presents a reasonable risk of transmitting any infection.

If a situation occurs at school in which a person might have been exposed to an infectious agent, such as an instance of blood-to-blood contact, school authorities shall counsel that person (or, if a minor, alert a parent or guardian) to seek appropriate medical evaluation.

HIV and Athletics

The privilege of participating in physical education classes, athletic programs, competitive sports, and recess is not conditional on a person's HIV status. School authorities will make reasonable accommodations to allow students living with HIV infection to participate in school-sponsored physical activities.

All employees must consistently adhere to infection control guidelines in locker rooms and all play and athletic settings. Rulebooks will reflect these guidelines. First aid kits must be on hand at every athletic event.

All physical education teachers and athletic program staff will complete an approved first aid and injury prevention course that includes implementation of infection control guidelines. Student orientation about safety on the playing field will include guidelines for avoiding HIV infection.

HIV Prevention Education

The goals of HIV prevention education are to promote healthful living and discourage the behaviors that put people at risk of acquiring HIV. The educational program will:

- be taught at every level, Kindergarten through grade twelve;
- use methods demonstrated by sound research to be effective;
- be consistent with community standards;
- follow content guidelines prepared by the Centers for Disease Control and Prevention (CDC);
- be appropriate to students' developmental levels, behaviors, and cultural backgrounds;
- build knowledge and skills from year to year;
- stress the benefits of abstinence from sexual activity, alcohol, and other drug use;
- include accurate information on reducing risk of HIV infection;
- address students' own concerns;
- include means for evaluation;
- be an integral part of a coordinated school health program;
- be taught by well-prepared instructors with adequate support; and
- involve parents and families as partners in education.

Parents and guardians will have convenient opportunities to preview all HIV prevention curricula and materials. School staff members shall assist parents or guardians who ask for help in discussing HIV infection with their children. If a parent or guardian submits a written request to a Principal that a child not receive instruction in specific HIV prevention topics at school, and assures that the topics will be discussed at home or elsewhere, the child shall be excused without penalty.

The education system will endeavor to cooperate with HIV prevention efforts in the community that address out-of-school youth and youth in situations that put them at high risk of acquiring HIV.

Related Services

Students will have access to voluntary, confidential, age and developmentally appropriate counseling about matters related to HIV infection. School administrators will maintain confidential linkage and referral mechanisms to facilitate voluntary student access to appropriate HIV counseling and testing programs, and to other HIV-related services as needed. Public information about resources in the community will be kept available for voluntary student use.

Staff Development

All school staff members will participate in a planned HIV education program that conveys factual and current information; provides guidance on infection control procedures; informs about current law and state, district, and school policies concerning HIV; assists staff to maintain productive parent and community relations; and includes annual review sessions. Certain employees will also receive additional specialized training as appropriate to their positions and responsibilities.

General Provisions

On an annual basis, school administrators will notify students, their family members, and school personnel about current policies concerning HIV infection, and provide convenient opportunities to discuss them. Information will be provided in major primary languages of students' families.

This policy is effective immediately upon adoption. In accordance with the established policy review process or at least every three years, the superintendent shall report on the accuracy, relevance, and effectiveness of this policy and, when appropriate, provide recommendations for improving and/or updating the policy.

3. The principal of the school shall assign extra-curricular duties, i.e., homeroom, etc., to teachers on the basis of administrative needs of the school, workload of the teacher, and special abilities or talents of the teacher; interests of the teacher shall be considered by the principal in the assignment of extra-curricular duties. The principal shall make extra-duty assignments as equitably as possible.
4. Employees should familiarize themselves with all policies and regulations of the Gadsden City Board of Education and of the local school and shall be responsible for observing and enforcing such rules and school regulations.
5. Certificated employees shall be responsible for:

10. Teachers shall arrive on the campus and be in their classroom by designated times each day. Normal departure time will, depending on school-related requirements, be fifteen minutes after school is dismissed. Administrators should be present a minimum of 30 minutes after school is dismissed in the afternoon. Individual school situations may necessitate an alteration in this schedule.
11. All teachers shall cooperate with other teachers in the school so that the school may achieve its schoolwide objectives and goals.
12. Teachers have a professional obligation to work with parents in interpreting the school program and shall make every effort to develop understanding and public confidence in the school's program.

Preamble

The educator, believing in the worth and dignity of each human being, recognizes the supreme importance of the pursuit of truth, devotion to excellence, and nurture of democratic principles. Essential to these goals is the protection of freedom to learn and to teach and the guarantee of equal educational opportunity for all. The educator accepts the responsibility to adhere to the highest ethical standards.

The educator recognizes the magnitude of the responsibility inherent in the teaching process. The desire for the respect and confidence of one's colleagues, of students, of parents and of the members of the community provides the incentive to attain and maintain the highest possible degree of ethical conduct. The Code of Ethics of the Education Profession indicates the aspiration of all educators and provides standards by which to judge conduct.

Principle I

Commitment to the Student

 - a. Exclude any student from participation in any program;
 - b. Deny benefits to any student;
 - c. Grant any advantage to any student.
7. Shall not use professional relationships with students for private advantage.
8. Shall not disclose information about students obtained in the course of professional service, unless disclosure serves a compelling professional purpose or is required by law.

Principle II

Commitment to the Profession

The education profession is vested by the public with a trust and responsibility requiring the highest ideals of professional service.

In the belief that the quality of the services of the education profession directly influences the nation and its citizens, the educator shall exert every effort to raise professional standards, to promote a climate that encourages the exercise of professional judgment, to achieve conditions which attract persons worthy of the trust to careers in education, and to assist in preventing the practice of the profession by unqualified persons.

In fulfillment of the obligation to the profession, the educator—

1. Shall not in an application for a professional position deliberately make a false statement or fail to

disclose a material fact related to competency and qualifications.

2. Shall not misrepresent his/her professional qualifications.

Policy GBKA: Reduction In Force Certified and Other Professional Personnel

Status: ADOPTED

Original Adopted Date: 02/01/2011 | **Last Reviewed Date:** 02/01/2011

SCOPE AND DEFINITION. This policy shall apply to reduction-in-force (layoffs). As used herein, the term "layoff" means an unavoidable reduction in the workforce beyond normal attrition due to decreased enrollment or shortage of revenues. The term "layoff" does not include and the provisions of this policy do not apply to decisions to terminate or not to extend the appointment of occasional, temporary, or "at will" employees, or to decisions not to extend or renew the employment of employees upon the expiration of annual or other specified terms of employment.

CRITERIA FOR IMPLEMENTING LAYOFFS. Layoffs may be implemented if the Board determines that financial circumstances and/or enrollment data require such action in order to maintain effective provision of educational services. The elimination of positions and layoff of employees shall be based upon consideration of all other specified terms of employment.

- a. The Board's determination of its educational needs, requirements, and priorities;
- b. Current data and projected trends in revenue collections and/or enrollment;
- c. The comparative abilities of persons currently holding positions subject to elimination to meet the needs and requirements of the school system as determined by such considerations as education, training, and experience; quality of job performance; special skills and aptitudes; possession of necessary and appropriate licensure and/or certification; and proficiency in performing varying tasks, responsibilities, and functions (versatility);
- d. Other factors being equal, comparative length of employees' service in the position and with the Board;
- e. The extent to which cost savings or other appropriate administrative objectives can be realized by taking into consideration voluntary retirements, resignations, transfers and other normal attrition in the workforce;
- f. Any nondiscrimination requirements that may be imposed by state or federal law and any procedural or substantive requirements that may be imposed by state or federal law, including any statement or specification of the reasons or grounds for the layoff if and to the extent required by the Alabama Teacher Tenure Law or the Alabama Fair Dismissal Act.

RECALL. Tenured instructors who have been laid off under the terms of this policy will be given priority in filling instructors' positions which are restored after their elimination, provided that:

- a. The nature of the position and qualifications therefore have not materially changed;
- b. The laid-off instructor remains properly qualified, licensed, and certified; and
- c. The laid-off instructor confirms in writing his or her availability for and interest in reemployment to the Board's Director of Certificated Personnel within thirty days of receipt of notice of layoff from the Board.

The recall provisions of this policy apply only to tenured instructors, and to no other class of employee. Selection of employees for recall will be based on the criteria applied to layoffs where there are more employees eligible for recall than positions available to fill. When layoffs occur over a period of time, the Board will take relative length of separation from service into consideration in assigning recall priority, other factors being equal. In no case will any right to be recalled to employment extend beyond one year from the effective date of the instructor's layoff. Recalled instructors will be credited with tenure, years of service, and the pay and benefit status which they enjoyed on the effective date of their layoff. No pay, benefits, status, or additional rights will accrue or be credited to the recalled instructor for the time he or she was not employed.

NOTICE. Notification of layoff and recall shall be by United States certified or registered mail, hand delivery, or such other means as are permitted for notification of proposed contract cancellation by the Alabama Teacher Tenure Law. Upon receipt of notification of recall, a laid-off employee shall have fourteen (14) days from the receipt of said notice within which to respond affirmatively to the notice of recall in accordance with such specific directions or instructions as may be contained therein. Any laid-off instructor who does not so respond or who otherwise declines an offer of reemployment by the Board will be deemed to have waived any right to be recalled under the terms of this policy.

Voluntary

Voluntary transfers of certified staff shall be made in accordance with the Students First Act. The consideration of any request for transfer shall be in accordance with the criteria outlined above. All other factors being equal, first consideration will be given to the employee having the most years of service in the Gadsden City School System.

To promote continuity of learning experiences throughout the school district, the Superintendent of Education shall prepare procedures governing certificated staff transfers which are consistent with the following:

1. Unless critical need exists, voluntary transfer of certificated personnel shall be implemented only at the following time intervals:

Policy GBRI: Personal Leaves and Absences

Status: ADOPTED

Original Adopted Date: 05/05/2009 | **Last Reviewed Date:** 05/05/2009

Leaves of Absence

The Board may grant leaves of absence to tenured employees for a period of one year for justifiable reasons which may be extended at the Board's discretion to a second year without loss of continuing service status. Such leaves shall be without pay. An employee for whom a leave of absence is approved may return to the school district in a comparable position and salary to that held at the time leave was granted.

An employee wishing to return from a full year's leave should notify the Superintendent of his intended date of return in writing thirty (30) days prior to the end of the school year.

Personal Leave

Employees of the Gadsden City Schools shall receive up to five (5) days of personal leave annually. For the first two (2) days, the Board shall provide a substitute for the employee, whenever necessary, without cost to the employee. For subsequent days, if taken, the cost of a substitute shall be deducted from the employee's regular salary, except in the following situations:

- a. Employees with ten (10) years experience* shall receive one additional paid personal leave day (total of three paid days).
- b. Employees with fifteen (15) years of experience* shall receive two additional paid personal leave days (total of four paid days).
- c. Employees with twenty (20) years experience* shall receive three additional paid personal leave days (total of five paid days).

*For the purposes of this policy, an employee's total experience shall include all time spent in the Gadsden City Schools and up to a maximum of ten (10) years experience in other public school systems.

Employees who qualify for additional paid personal leave days under this policy, but who do not use all of the days to which they are entitled during the year, may choose between the following options:

1. They may choose to be reimbursed by the Board at the end of the year for any such days, which remain unused; this reimbursement for each day shall be equal to the daily rate of pay for a substitute.
2. The employee may choose to convert any such days which remain unused into sick leave days; such converted days will be added to the employee's accumulated total of sick leave days.

Requests for personal leave shall be directed to the principal and should be in writing and in advance of the selected date whenever possible. The principal shall grant such requests on a first-come, first-served basis, provided that no more than ten percent (10%) of the school's staff shall be granted personal leave on the same date. This restriction may be waived under extenuating circumstances with the approval of the Superintendent of Education.

- D. Where unusually strong personal ties exist because of an employee having been supported or educated by a person of some relationship other than those listed, this relationship may be recognized for leave purposes. In such cases the employee concerned shall file with the Board a written statement of the circumstances which justify an exception to the general rule;
- E. Attendance to an ill member of the immediate family (husband, wife, father, mother, son, daughter, brother, sister) of the employee, or a person standing in loco parentis.

Certified personnel may accumulate sick leave at the rate of one (1) day per month of employment up to the maximum allowed by state law and State Department of Education regulations. In no cases shall sick leave be used until it has been earned, except as may otherwise be provided by policies governing sick leave banks.

No student or board employee will be permitted to use tobacco products while representing the school in any extra curricular activity. Policy GBRM: Drug-Free Workplace

Status: ADOPTED

Original Adopted Date: 07/10/2012 | **Last Reviewed Date:** 07/10/2012

Drug abuse and use at the workplace are subjects of immediate concern in our society. These problems are extremely complex and ones for which there are no easy solutions. From a safety perspective, the users of drugs may impair the well-being of all employees, the public at large, and result in damage to school property. Therefore, it is the policy of the Gadsden City Board of Education that the unlawful manufacture, distribution, dispensation, possession, or use of a controlled substance in the school workplace is prohibited. Any employee violating this policy will be subject to discipline up to and including termination. The specifics of this policy are as follows:

1. The Gadsden City Board of Education does not differentiate between drug users and drug pushers or sellers. Any employee who gives or in any way transfers a controlled substance to another person or sells or manufactures a controlled substance while on the job or on school premises will be subject to discipline up to and including termination.
 2. The term "controlled substance" means any drug listed in 21 U.S.C. Section 812 and other federal regulations. Generally, these are drugs which have a high potential for abuse. Such drugs include, but are not limited to, heroin, marijuana, cocaine, PCP, and "crack". They also include "legal drugs" which are not prescribed by a licensed physician.
 3. Each employee is required by law to inform the Superintendent within five (5) days after he or she is convicted for violation of any federal or state criminal drug statute where such violation occurred on the school premises. A conviction means a finding of guilt (including a plea of nolo contendere) or the imposition of a sentence by a judge or jury in any federal or state court.
 4. The Superintendent must notify the U.S. government agency with which an applicable contract has been made within ten (10) days after receiving notice from the employee or otherwise receives actual notice of such a conviction.
 5. If an employee is convicted of violating any criminal drug statute while on the workplace, he or she will be subject to discipline up to and including termination. Alternatively, the Board may require the employee to successfully finish a drug abuse program sponsored by an approved private or governmental institution.
 6. As a condition of further employment on any federal government contract, the law requires all employees to abide by this policy.
 7. All disciplinary actions under this policy including terminations and/or contract cancellations shall be in accordance with current laws and procedures.

Policy GBRO: Employee Drug Testing

Status: ADOPTED

Original Adopted Date: 10/01/2019 | **Last Reviewed Date:** 10/01/2019

The Gadsden City Board of Education declares that the manufacture, distribution, sale or possession of alcohol, drug paraphernalia, controlled substances and other illegal drugs in an unlawful manner or being at work under the influence of alcohol, controlled substances, or other illegal drugs, is a serious threat to the safety and well-being of students and staff. The Board understands that Board employees must not manufacture, distribute, dispense, possess, or use a controlled substance, illegal drug, or alcohol in the employee's workplace, in any Board vehicle or in an employee vehicle on Board property or being used during the performance of their job duties.

TESTING

All employees may be required to submit to drug and/or alcohol screening whenever a supervisor observes circumstances which provide reasonable suspicion an employee is under the influence of controlled substances, illegal drugs, and/or alcohol. The reasonable suspicion determination must be based on specific, prudent, and articulable observations concerning the appearance, behavior, speech, or body odors of the employee. The employee's supervisor will notify the Director of Human Resources and/or the Director of School Operations once a determination has been made that an employee could be in violation of the Drug/Alcohol policy. The Director(s) will then initiate the steps necessary to collect specimens in coordination with a certified medical laboratory. The Director(s) will also be present during the collection process to ensure that a proper chain of custody is maintained.

Employees involved in a vehicle accident while performing their job duties are also subject to testing under this policy.

Gadsden City Schools shall bear the cost of all initial testing, including the initial screen and confirmation testing. Should an employee have a confirmed positive test result and elect to have a re-test pursuant to the testing procedures, then the cost of such shall be the responsibility of the employee, and should be conducted within 24 hours of the initial test.

DISCIPLINE

Violations of the Drug/Alcohol policy, including testing positive, will subject the employee to discipline, up to and including termination. Refusal to cooperate with any required testing or in any test investigation will result in discipline up to and including termination, as appropriate under applicable State and Federal laws. In some cases, dependent upon the severity of the situation, substance abuse counseling and/or treatment services may be required or offered as an option through the districts Employee Assistance Program (EAP).

SEARCHES

If a supervisor has reasonable suspicion that an employee has violated the Drug/Alcohol policy, he or she may inspect Board owned and personal vehicles, lockers, work areas, desks, purses, or other belongings which an employee brings on the School Board's property. It will also include areas where school related activities are conducted. All searches will be coordinated with the Director of Human Resources and/or the Director of School Operations. The School Board will release any illegal or controlled drugs, and/or paraphernalia to law enforcement authorities.

OFF-DUTY CONDUCT

Off-duty use and/or possession of controlled substances, illegal drugs, and/or alcohol abuse which results in impaired work performance, including, but not limited to, absenteeism, tardiness, poor work product, or harm to the Gadsden City School system's image or relationship with its stakeholders, is prohibited, and can result in disciplinary action up to and including termination.

RETURN TO WORK

No employee may be returned to regular duties after rehabilitative services or testing positive unless released for duty by the school system's Medical Resource Officer (MRO). Prior to returning to work, the employee must have a negative drug or alcohol test. The cost of the clearing drug/alcohol test is the responsibility of the employee. A returning employee will be on probation for a predetermined amount of time. During this period, the employee will be subject to aftercare and random testing as set forth in a written Probation Agreement.

CONVICTIONS

Any employee convicted of any criminal drug statute involving the manufacture, distribution, and/or possession of a controlled substance and/or an illegal drug(s) shall, within 5 working days after receiving notice of conviction, provide notification of the conviction to the Superintendent.

NOTIFICATION OF PRESCRIPTION OR OTHER LEGAL MEDICATION AFFECTING WORK

In order to avoid creating safety issues and violating the Drug/Alcohol Policy, employees must inform their supervisor or the Director of Human Resources when they are legally taking medication which may affect their ability to perform their required job duties. Employees will not perform their duties while taking prescribed drugs that are adversely affecting their ability to safely and effectively perform their job duties. Employees taking a prescribed medication must carry it in a container labeled by a licensed pharmacist or be prepared to produce the container if asked.

2. Processes and instruments to be used during evaluation are explained to all employees in advance of evaluation, and
3. Multiple observations of performance are used as a basis for evaluation.

Policy GCKA: Reduction in Force - Classified and Other Non-Certified Personnel

Status: ADOPTED

Original Adopted Date: 02/01/2011 | **Last Reviewed Date:** 02/01/2011

SCOPE AND DEFINITION. This policy shall apply to reduction-in-force (layoffs). As used herein, the term “layoff” means an unavoidable reduction in the workforce beyond normal attrition due to decreased enrollment or shortage of revenues. The term “layoff” does not include and the provisions of this policy do not apply to decisions to terminate or not to extend the appointment of occasional, temporary, or “at will” employees, or to decisions not to extend or renew the employment of employees upon the expiration of annual or other specified terms of employment.

CRITERIA FOR IMPLEMENTING LAYOFFS. Layoffs may be implemented if the Board determines that financial circumstances and/or enrollment data require such action in order to maintain effective provision of educational services. The elimination of positions and layoff of employees shall be based upon consideration of all the following criteria, as applicable to the circumstances:

- a. The Board's determination of its educational needs, requirements, and priorities;
- b. Current data and projected trends in revenue collections and/or enrollment;
- c. The comparative abilities of persons currently holding positions subject to elimination to meet the needs and requirements of the school system as determined by such considerations as education, training, and experience; quality of job performance; special skills and aptitudes; and proficiency in performing varying tasks, responsibilities, and functions (versatility);
- d. Other factors being equal, comparative length of employees' service in the position and with the Board;
- e. The extent to which cost savings or other appropriate administrative objectives can be realized by taking into consideration voluntary retirements, resignations, transfers, and other normal attrition in the workforce.
- f. Any nondiscrimination requirements that may be imposed by state or federal law and any procedural or substantive requirements that may be imposed by state or federal law, including any statement or specification of the reasons or grounds for the layoff if and to the extent required by the Alabama Fair Dismissal Act.

RECALL. Employees who have been laid off under the terms of this policy will be given priority in filling the position which is restored after their elimination, provided that:

- a. The nature of the position and qualifications therefore have not materially changed;
- b. The laid-off employee remains properly qualified; and
- c. The laid-off employee confirms in writing his or her availability for and interest in reemployment to the Board's Personnel Director within thirty days of receipt of notice of layoff from the Board.

Selection of employees for recall will be based on the criteria applied to layoffs where there are more employees eligible for recall than positions available to fill. When layoffs occur over a period of time, the Board will take relative length of separation from service into consideration in assigning recall priority, other factors being equal. In no case will any right to be recalled to employment extend beyond one year from the effective date of the employee's layoff. No pay, benefits, status, or additional rights will accrue or be credited to the recalled employee for the time he or she was not employed.

NOTICE. Notification of layoff and recall shall be by United States certified or registered mail, hand delivery, or such other means as are permitted for notification of proposed contract cancellation by the Alabama Fair Dismissal Act. Upon receipt of notification of recall, a laid-off employee shall have fourteen (14) days from the receipt of said notice within which to respond affirmatively to the notice of recall in accordance with such specific directions or instructions as may be contained therein. Any laid-off employee who does not so respond or who otherwise declines an offer of reemployment by the Board will be deemed to have waived any right to be recalled under the terms of this policy.

Full-time employees include employees whose duties require working twenty or more hours in each normal working week of the school term. Substitute teachers and other substitute employees are not covered by this policy. The Board may remove an employee during the employee's probationary period by furnishing the employee written notification in compliance with state law. Pay will continue fifteen (15) days from the date of notification. It shall be the responsibility of the employee to assure currency of an employee's address.

If notice of non-renewal is not received by June 15 (June 30 during quadrennium) following the third consecutive full year, the employee is deemed non-probationary. Termination of an employee on a non-probationary status shall only be undertaken for the reasons and in accordance with the procedures outlined in state statutes.

Policy GCRG: Leaves and Absences

Status: ADOPTED

Original Adopted Date: 07/10/2012 | **Last Reviewed Date:** 07/10/2012

Support Personnel

Leaves of Absence

The Board may grant leaves of absence to tenured employees for a period of one year for justifiable reasons which may be extended at the Board's discretion to a second year without loss of continuing service status. Such leaves shall be without pay. An employee for whom a leave of absence is approved may return to the school district in a comparable position and salary to that held at the time leave was granted.

An employee wishing to return from a full year's leave should notify the Superintendent of his intended date of return in writing thirty (30) days prior to the end of the school year.

Personal Leave

Employees of the Gadsden City Schools shall receive up to five (5) days of personal leave annually. For the first two (2) days, the Board shall provide a substitute for the employee, whenever necessary, without cost to the employee. For subsequent days, if taken, the cost of a substitute shall be deducted from the employee's regular salary, except in the following situations:

- a. employees with ten (10) years experience* shall receive one additional paid personal leave day (total of three paid days).
- b. employees with fifteen (15) years of experience* shall receive two additional paid personal leave days (total of four paid days).
- c. Employees with twenty (20) years experience* shall receive three additional paid personal leave days (total of five paid days).

*For the purposes of this policy, an employee's total experience shall include all time spent in the Gadsden City Schools and up to a maximum of ten (10) years experience in other public school systems.

Employees who qualify for additional paid personal leave days under this policy, but who do not use all of the days to which they are entitled during the year, may choose between the following options:

1. They may choose to be reimbursed by the Board at the end of the year for any such days, which remain unused; this reimbursement for each day shall be equal to the daily rate of pay for a substitute.
2. The employee may choose to convert any such days which remain unused into sick leave days; such converted days will be added to the employee's accumulated total of sick leave days up to the maximum allowed under state law.

Requests for personal leave shall be directed to the principal and should be in writing and in advance of the selected date whenever possible. The principal shall grant such requests on a first-come, first-served basis, provided that no more than ten percent (10%) of the school's staff shall be granted personal leave on the same date. This restriction may be waived under extenuating circumstances with the approval of the Superintendent of Education.

Legal Leave

A Board employee who is required to serve on a jury or appear as a witness in court in school related matters shall receive the regular pay to which he is entitled, in addition to any monies he receives for jury duty.

Sick Leave

Sick leave is defined as the absence from regular duty by a support employee because of the following:

- A. Personal illness;
- B. Bodily injury which incapacitates the employee;
- C. Death in the immediate family of the employee (husband, wife, father, mother, son, daughter, brother, sister, father-in-law, mother-in-law, son-in-law, daughter-in-law, nephew, niece, granddaughter, grandson,

grandfather, grandmother, uncle, and aunt);

D. Where unusually strong personal ties exist because of an employee having been supported or educated by a person of some relationship other than those listed, this relationship may be recognized for leave purposes. In such cases the teacher concerned shall file with the Board of Education a written statement of the circumstances which justify an exception to the general rule;

E. Attendance to an ill member of the immediate family (husband, wife, father, mother, son, daughter, brother, sister) of the employee, or a person standing in loco parentis.

Support personnel may accumulate sick leave at the rate of one (1) day per month of employment up to the maximum allowed by state law and State Department of Education regulations. In no cases shall sick leave be used until it has been earned, except as may otherwise be provided by policies governing sick leave banks.

Employees who will be using more than ten (10) consecutive sick days should inform their immediate supervisor in writing of the extended absence noting the expected date of return. The employee should also provide appropriate supporting physician documentation for the extended absence. In this way, arrangements can be made for a suitable extended substitute where needed.
