No person shall be denied the benefits of any education program or activity on the basis of race, color, disability, creed, national origin, age, or sex. All programs offered by schools within the school district shall be open to all students in compliance with statutory and judicial requirements.

Policy JBA: Compulsory Attendance

Status: ADOPTED

Original Adopted Date: 07/10/2012 | **Last Reviewed Date:** 07/10/2012

The Gadsden City Board of Education shall enroll in school all students residing within the school district between the ages of six and seventeen years, not otherwise receiving instruction in a private school, church school, or being taught by a private tutor in accordance with state law. An accurate record of attendance for each pupil shall be maintained by the classroom or homeroom teacher or other designated person. This record shall be kept in the official register, or through other officially approved documentation provided or approved by the State Department of Education.

It is the policy of the Gadsden City Board of Education that students in grades 9-12 must register and begin attending classes no later than ten (10) days from the beginning of the semester in order to receive Carnegie units credit for that semester.

Ref: Ala. Code 16-28-3.

Policy JBAA: Student Attendance Policy

Status: ADOPTED

Original Adopted Date: 07/10/2012 | **Last Revised Date:** 07/22/2015 | **Last Reviewed Date:** 07/22/2015

It is the belief of the Gadsden City Board of Education that regular school attendance is important to all students and to the school system. It is further believed that course content and grading procedures should be structured in such a fashion that regular attendance is necessary in order to successfully complete course requirements.

It is the responsibility of parent(s)/guardian(s) and students to maintain regular and punctual student attendance at school. Administrators and teachers will make every effort to encourage regular attendance by students and solicit assistance from parents and guardians in accomplishing this objective.

An absence is defined as non-attendance (except for in-school activities which are excused by school personnel) in a regularly scheduled class or activity, regardless of the reason for such non-attendance.

Excused Absences – Parent(s) guardian(s) must provide a written explanation of the reason(s) for each absence within two school days after each absence (or consecutive absences). If the written explanation is not provided within the two-day period, the absences will be coded unexcused. A student must be in attendance one-half day to be counted present. Absences will be excused for the following reasons:

1. Personal illness without doctor's excuse, with parent/guardian excuse
2. Personal illness with a doctor's statement
3. Death in the immediate family
4. Weather preventing attendance (would endanger student's health)
5. Legal requirements, such as subpoena or other required court appearance
6. Prior permission by the principal at the request of parent or guardian
7. Legal quarantine

Unexcused Absences – Any absence(s) not classified as excused absence(s) will be coded unexcused.

The Gadsden City School System recognizes that daily instruction in classes is imperative to student success either in traditional or, more importantly, block scheduling. Our goal is to provide meaningful instruction for every student every day during each term. In order to complete that goal, to assist students in their personal educational growth, and to help them develop personal responsibilities toward their own success, the school counselors, administrators, and secretaries will call a parent/guardian when students are absent beginning with the second absence. By ensuring that students have the opportunity to meet attendance requirements, we can ensure that maximum learning takes place.

- I. ISS (In-school suspension)
 - A. For the purposes of this policy, ISS is **not** considered as a class absence.
 - B. If ISS is not available, detention or corporal punishment could be used when deemed appropriate by the administration.
- II. ABSENCES OVER TEN DAYS
 - A. A letter will be sent to a parent/guardian after a high school student has missed a class ten (10) unexcused times during a term; fifteen (15) unexcused days for a middle school student and a parent conference is required.
 - B. Any class periods that are missed more than ten (10) unexcused times for a high school student during a semester (or more than fifteen (15) unexcused times per year for a middle school student) may result in the student failing to receive credit for that course. A grade of F/A (failure due to absences) may be issued to the student for the course in such cases.
 - C. Class work missed during unexcused absences may not be made up. An out-of-school suspension is an unexcused absence and work may not be made up.
 - D. Students will have the opportunity to make up assignments with an excused absence. However, the teacher has the option to require that tests and exams be administered during a separate, teacher monitored session which must be scheduled through the respective teacher. Students will have three days to turn in missed assignments. (Could be longer if approved by principal)

III. PHILOSOPHICAL BASIS

School administrators are required under state law to enforce compulsory school attendance laws. Regular attendance by students facilitates the development of the skills and knowledge necessary to function in a modern democratic society.

Student Responsibilities are:

- To take advantage of educational opportunities by attending all classes daily and punctually.
- To provide the school with an adequate explanation and appropriate documentation indicating the reason for an absence.
- To promptly request make-up assignments for each excused absence and to complete these assignments within a reasonable length of time or a zero (0) will be issued for the assignment(s).

Student Rights are:

- To be informed of School Board policies and individual school rules regarding absenteeism and tardiness.
- To appeal a decision pertaining to an absence.
- To make up class work with a specified length of time when there is an excused absence.

Principal: Evaluation of student absences may be appealed to the school principal.

Students Over Twenty-One

If a person is twenty-one years of age on or before September 1 of a particular year, he shall not be admitted to a Gadsden City School without the approval of both the principal of the school and the Superintendent of Education.

In no cases shall admissions policies reflect overt or inadvertent discrimination based on race, color, creed, sex, religion, or national origin.

It is the policy of the Gadsden City School System to provide, on a nondiscriminatory basis, educational opportunities for children. No person shall be denied the benefits of any educational program or activity on the basis of race, color, disability, creed, national origin, age, or sex.

Enrollment of homeless, migrant, immigrant, and limited English proficient children shall not be denied due to any barriers: birth certificate, school records, transcripts, immunization, proof of residency, transportation, unaccompanied: no guardian.

Policy JC: Student Rights and Responsibilities

Status: ADOPTED

Original Adopted Date: 07/10/2012 | **Last Reviewed Date:** 07/10/2012

Freedom of expression is a constitutional right guaranteed to all citizens. The Gadsden City Board of Education shall make every effort to provide for the free expression of ideas by students subject to the controls on student expression permitted by the courts. No student shall have the right to interfere with the educational process of other students. The Board endorses the concept of student and staff academic freedom, commensurate with the age, intelligence, and overall maturity levels of students. All students shall be free to express their points of view in an orderly manner in keeping with democratic ideas. All students shall simultaneously respect the rights of fellow students, teachers, and school officials in this respect and shall also remember that individual rights cease when they infringe upon legally valid rights of others.

All students shall have the freedom to exercise the right of legal protest through proper channels, providing that such protest does not interfere with the educational program of the school or Gadsden City School District, or result in harm to other individuals or to school owned or individually owned property.

All students shall, as noted above, have the responsibility to grant the same rights and responsibilities to each other, to develop tolerance for the viewpoints and opinions of others and to recognize the right of other individuals to form and hold different points of view. In essence, the Board recognizes the dignity and worth of every student and each

student's constitutional rights. On the other hand, the Board shall insist that any exercise of such rights which creates disruption within a school is an abuse rather than a legally valid exercise of substantive rights.

Codes of student conduct shall be based on maintaining within each school a proper atmosphere for learning. Codes of conduct shall be consistent with the policies of the Gadsden City Board of Education which, in turn, shall be in full accord with statutory requirements and regulations of duly authorized administrative agencies.

All professional personnel shall work in a cooperative manner under the leadership of designated officials to assure that all students do abide by established rules and regulations. All personnel shall likewise assure that student governance and discipline is completely free from arbitrary, capricious, discriminatory, or otherwise legally indefensible and educationally unsound practices.

Policy JCAA: Due Process

Status: ADOPTED

Original Adopted Date: 07/10/2012 | **Last Reviewed Date:** 07/10/2012

Due process within the Gadsden City School District is intended to insure fair and reasonable approaches to all areas of student governance and discipline on the parts of all school officials.

The Gadsden City Board of Education recognizes that observance of applicable substantive due process entails two basic considerations in every area. One is to produce, through the use of fair procedures, more accurate results: to prevent the wrongful deprivation of interests. The other goal is to make people feel that the school district has treated them fairly by, say, listening to their side of the story. To assure compliance with these two due process aspects, the Gadsden City Board of Education has endorsed the following as applicable to all policies, rules and regulations considered necessary to accomplish the district's interest of maintaining a proper atmosphere for learning in each school.

1. Each local school policy, rule or regulation must spell out its purpose, relating same to accomplishment of a legally defensible objective.
2. Each local regulation must be consistent with the established policies of the Gadsden City Board of Education.
3. All policies, rules and regulations at any level must be consistent with local ordinances, statutes of the State of Alabama, administrative regulations of duly authorized agencies; i.e., State Board or State Department of Education; Department of Human Resources.
4. Both policies of the Gadsden City Board of Education and regulations designated by local school administrators must be specific and precise. Vague and overly broad regulations do not adequately meet the due process requirement of adequate notice.
5. No board policies or local school codes of conduct can deny any students constitutional rights; neither policies nor rules or regulations can violate due process of law under the Fourteenth Amendment nor their rights under the Bill of Rights.
6. All discharge of administrative responsibilities and exercise of authority must recognize applicable legal parameters placed upon positions of school officials.
7. All exercise of administrative authority or that of other school officials, i.e., classroom teachers, must be capable of surviving close judicial scrutiny relative to freedom from arbitrary, capricious, discriminatory or otherwise illegal practices.
8. Students, parents, citizens, teachers, and administrators should be participants in developing local school codes of conduct.

Procedural due process within the school district shall relate primarily to the area of discipline and disciplinary measures, e.g., corporal punishment, short-term suspension, long-term suspension and expulsion.

The degree of procedural due process afforded in each of the above situations shall be dependent upon: (1) the gravity of the offense a student is alleged to have committed; and (2) the severity of the contemplated penalty.

Before being punished for violation of board policies or school regulations, a student shall have the right of the following minimum due process procedures:

1. The student shall be given oral or written notice of the charges against him.
2. The evidence against the student shall be explained to him
3. The student shall be given an opportunity to present his own version of the facts concerning the charges.

When a student is facing possible long-term suspension or expulsion, the Board shall afford the student the following:

1. The right to obtain counsel,
2. The opportunity for cross examination of witnesses,
3. A record of the hearing; and
4. A written record of the decision.

Policy JCAB: Interrogations and Searches

Status: ADOPTED

Original Adopted Date: 07/10/2012 | **Last Reviewed Date:** 07/10/2012

Search of Property

The Gadsden City Board of Education fully recognizes the implications of constitutional law in the area of student privacy. The Board is equally aware that such tangible personal property items as student desks, student lockers, and related properties are and remain the property of the Board.

The Board is charged with maintenance of such property and thus authorizes inspection for any maintenance related reasons. With respect to opening said lockers or desks for other reasons, the following shall apply throughout the school district.

Student lockers, desks, books, and other similar property are owned, leased, or controlled at all times by the school. Any and all vehicles driven or parked on campus are subject to searches and seizures just as school-owned property would be. The school exercises exclusive control over the school-related property, and a student should not expect any privacy whatsoever regarding items placed or stored in or on school-related property, because school-related property is subject to search at any time by school officials.

Any items which are specifically prohibited by law, by board policy, or by fair and reasonable local school regulations may be impounded by school officials. Such prohibited items shall include, but not be limited to, the following: (1) any weapons, (2) drugs of any sort, (3) alcoholic beverages, (4) pornographic or otherwise obscene material, or (5) any other object, controlled substance or material which would be a violation or evidence of a violation of federal or state law, of board policy, or of the local school's fair and reasonable regulation.

In the initiation and conduct of any search, a school administrator will remain in charge at all times. A witness from the professional staff shall be present during the inspection at all times when students cannot be contacted.

Search of a Student's Person

The Board authorizes teachers and administrative personnel who have reasonable belief that a student or students are in possession of weapons, illegal drugs, or other items harmful to the student or students or to the welfare of the student body to search the person of said student(s) under the following conditions:

1. Any such action shall not be taken unless there is a reasonable belief of violation of law or policy which can be substantiated if necessary;
2. Any such action shall not deliberately be intended to embarrass, harass, or intimidate the student(s);
3. Parents or guardians shall be notified, in writing, of all such searches of a student's person. A copy of said notice shall be retained by the principal.

The above search shall be with the knowledge and under the supervision of the principal.

Any search of a student's person shall be done privately by a teacher or administrator of the same sex as the student to be searched. At least one witness who is an administrator or teacher, also of the same sex as said student, shall be present throughout the search. A record of the search shall be made. One copy shall be filed in the principal's office. One copy shall be sent to the Superintendent of Education. Students shall be given a receipt for all items impounded.

Interrogations of Students

A student enrolled in the school district shall not be interrogated by any law enforcement authority on public school property during regular schools hours without the knowledge of the school's principal or his designee. All interrogations shall be conducted in private, with an official school representative (principal or his designated representative) present. Every reasonable effort shall be made to have a parent or guardian present. In those instances where a parent cannot be present within a reasonable period of time, school officials may allow interviews by law enforcement officials to proceed in the absence of the parent or guardian. Other non-school persons shall not interview students at school with the exception of the student's parents or guardians.

superior charged with the responsibility of maintaining discipline or of maintaining security..."

The Gadsden City Board of Education recognizes the rights of all students to engage in acts of worship in accordance with the U.S. Constitution and Alabama Constitution. The Board supports the intent of Alabama state law to allow voluntary student-initiated prayer on school property and at any school related activity.

Students have the right to engage in voluntary individual prayer that is not coercive and does not substantially disrupt the school's educational mission and activities.

Policy JCD: Conduct

Status: ADOPTED

Original Adopted Date: 07/10/2012 | **Last Reviewed Date:** 07/10/2012

The Gadsden City Board of Education intends that District schools help students grow toward self-discipline, accept responsibility, and learn to appreciate the rights of others. To that end, the Board shall adopt a written student conduct and discipline code based upon the principle that every student is expected to follow accepted rules of conduct and to show respect for and to obey persons in authority. The code also shall emphasize that certain behavior, especially behavior that disrupts the classroom, is unacceptable and may result in disciplinary action.

The code shall be enforced uniformly, fairly, and consistently for all students. Violators shall be subject to appropriate disciplinary measures designed to assure that no student interferes with the rights of others to receive a quality education. Students shall receive adequate notice of local school codes of conduct as approved by the principal, Superintendent, and Board. All codes of conduct shall assure equality of educational opportunity for all students. Such codes may include but not be limited to the following:

Dress Code

The Board has the responsibility to maintain an appropriate atmosphere conducive to learning. Therefore, any student-worn article of clothing or manner of hair style or make-up determined by the teachers and principals to be disruptive to the learning environment or hazardous to the health and safety of the child and/or teacher shall not be allowed.

The primary guide in determining what is not appropriate is the extent to which such dress or grooming attracts undue attention in the classroom or school and creates a disruption in the learning process.

If the principal determines that the student's dress or grooming is unacceptable, adequate time shall be allowed the student to make proper adjustments. However, when a student continues to ignore the required changes, he shall be subject to disciplinary action.

Smoking/Use of Tobacco

Students shall not be permitted to smoke or use tobacco in any form on the school grounds or in school buildings during the school day, or when riding school buses to and from school or on a school-sponsored trip. Parental permission to smoke or otherwise use tobacco does not exempt a student from this policy. Professional school personnel shall organize and maintain programs of education designed to make pupils fully aware of the hazards of smoking and use of tobacco.

Students caught using tobacco in any form on the school grounds are subject to suspension or other appropriate disciplinary action.

Alcohol/Drug Use

It shall be the policy of the Board that the school principal or authorized official of the school shall be authorized to suspend any student found in possession of or in the act of using:

- a. alcohol, marijuana; or
- b. drugs (stimulants, depressants, hallucinogens, or opiates)

for which the student has no prescription from a duly recognized physician.

Also, the school principal or authorized official of the school is authorized to suspend any student who is caught selling alcohol and/or harmful drugs to others.

The above policies apply when the act(s) take place at school, on school grounds, on school buses and/or at any school-sponsored event, during or after regular school hours. Recommendation of expulsion may be made if the situation seems to be sufficiently grave.

The principal shall immediately notify the parents or guardians of the student by telephone. If the parents or guardians cannot be reached by phone, the principal shall then notify them of the action by sending a letter within 24

hours. Care shall be given to afford due process to all students.

Persons, firms, corporations, or associations who knowingly sell, give or otherwise dispense any alcoholic beverage to a school student under the age of eighteen (18) years or who have sold alcoholic beverage on school premises shall be liable for prosecution under Ala. Code 16-1-10.

Dangerous Weapons

The Board authorizes the Superintendent or designated official to suspend any student found in possession of a dangerous weapon. A dangerous weapon may be defined as a knife, club, gun, chain, or any other object deemed dangerous by the school officials. Such weapons are not to be carried by student on school grounds, on school buses, and/or at any school-sponsored event, during or after regular school hours. Disciplinary action for this offense may include expulsion in accordance with the due process procedures as established by this Board.

Bus Conduct

The Board expects parents of students to accept responsibility for supervision until such time as the child boards the bus in the morning and after the child leaves the bus at the end of the school day.

Once a child boards the bus—and only at that time—does he become the responsibility of the school district. Such responsibility shall end when the child is discharged at the regular bus stop at the close of the school day.

Since the bus is an extension of the classroom, the Board shall require children to conduct themselves on the bus in a manner consistent with established standards for classroom behavior.

When a child does not conduct himself properly on a bus, it shall be brought to the attention of the building principal by the bus driver. The building principal shall inform the parents immediately of the misconduct and request their cooperation in controlling the child's behavior. He shall also discipline guilty students as deemed appropriate.

A child who becomes a serious disciplinary problem on the school bus may have his transportation privileges suspended or terminated. In such cases, the parents of the children involved shall become responsible for seeing that their children get to and from school.

Policy JCDB: Dress Code

Status: ADOPTED

Original Adopted Date: 07/10/2012 | **Last Revised Date:** 07/22/2015 | **Last Reviewed Date:** 07/22/2015

The Board recognizes that dress and grooming affect the behavior of students and that there are sanitation and safety factors directly related to proper dress and grooming. The manner in which a student dresses for school each day is primarily the responsibility of the student and his or her parents. However, when a student's style of dress or appearance presents a danger, causes an interruption of the instructional program, or violates the dress code he or she will be denied class admission until the condition is corrected. Therefore, the Board establishes the following expectations for student dress and appearance in order that school administrators, teachers, and parents will have clear dress and grooming guidelines to ensure that rules and discipline can be enforced consistently.

Specific Dress Regulations:

1. Good personal hygiene is to be observed at all times. Proper undergarments and shoes are mandatory. (House slippers are not suitable)
2. Head apparel will not be worn inside buildings.
3. Nose, lip, or other body piercing other than earrings will not be allowed. No excessive ear piercing. No exaggerated accessories to include but not limited to: large loop earrings; large, long, and heavy chains. No decorative dental appliances (whether permanent or temporary) or decorative contact lenses will be allowed.
4. Sunglasses and colored shades will not be worn inside buildings.
5. No see-through, backless, or strapless shirts; no spaghetti straps or muscle shirts; no midriff or tube tops will be allowed. Tops made from spandex, mesh, or fishnet will not be allowed. Sports bras cannot be worn as outerwear on school campus. No part of the bra or any undergarment should be visible at any time.
6. Tight-fitting garments such as bike shorts, exercise pants, or stretch pants should not be worn. Sleeping pants are considered unsuitable. Pants with holes in inappropriate places will not be allowed. No underwear should be visible at any time.
7. NO SAGGING PANTS. All shirts must be within six (6) inches of the hipline (waistline) and belts must be worn.
8. All shorts, skirts, skorts, or dresses must come to or extend below the tips of the fingers.
9. Clothing must not contain any writing, drawing, labels, or decals which could be offensive to others. No clothing will be allowed that displays antisocial, immoral or illegal behavior nor should clothing promote products which students may not legally buy, such as alcohol, tobacco, or illegal drugs.
10. All oversized jackets or coats made for outdoor wear such as starter jackets, overcoats, etc. must be placed in the locker first thing in the morning. With the instructor's permission, lightweight jackets and sweaters will be allowed in class.
11. In addition to articles previously mentioned: accessories, backpacks (must be clear or mesh and left in the locker upon arrival), notebooks, patches, haircuts must not display or promote racial/ethnic slurs/symbols; gang, satanic, or occult affiliations; violence or mutilation, vulgar, subversive or sexually suggestive language; or products such as alcohol, tobacco, and illegal drugs.
12. Any student's appearance that causes a disruption to the school climate will not be allowed in school.
13. At the high school level, cheerleaders and dance team members will be allowed to wear uniforms with opaque tights on game days. At the high school level it is believed that such a practice will help foster school spirit, as well as make others aware of athletic events.
14. Hair should be kept in an appropriate manner conducive to the education environment.

The Principal has the authority to add or delete any of the above regulations as emergency problems or concerns arise.

Evaluations of dress not covered by the fourteen (14) specific regulations will be done on an individual basis through referral to a counselor or principal. School "Dress Up" days are provided for in the regular calendar of activities during the year on a planned basis. The use of school time for initiation days by groups or organizations not sponsored by the school is prohibited.

- **Second Offense:** Parent conference
- **Third Offense:** Home referral
- **Fourth Offense:** Three (3) days of ISS
- **Fifth Offense:** One (1) day of OSS

Policy JCDD: Anti-Harassment

Status: ADOPTED

Original Adopted Date: 06/01/2010 | **Last Reviewed Date:** 06/01/2010

I. No student shall be engaged in or be subjected to harassment, violence, threats of violence, or intimidation by any other student that is based on any of the specific characteristics that have been identified by the Gadsden City Board of Education in this policy. Students who violate this policy are subject to disciplinary sanctions.

II. Definitions

A. The term “harassment” as used in this policy means a continuous pattern of intentional behavior that takes place on school property, on a school bus, or at a school-sponsored function including, but not limited to, written, electronic, verbal, or physical acts that are reasonably perceived as being motivated by any characteristic of a student, or by the association of a student with an individual who has a particular characteristic, if the characteristic falls into one of the characteristics set forth in Section III B below. To constitute harassment, a pattern of behavior may do any of the following:

- Place a student in reasonable fear of harm to his or her person or damage to his or her property.
- Have the effect of substantially interfering with the educational performance, opportunities, or benefits of a student.
- Have the effect of substantially disrupting or interfering with the orderly operation of the school.
- Have the effect of creating a hostile environment in the school, on school property, on a school bus, or at a school-sponsored function.
- Have the effect of being sufficiently severe, persistent, or pervasive enough to create an intimidating, threatening, or abusive educational environment for a student.

B. The term “violence” as used in this policy means the infliction of physical force by a student with the intent to cause injury to another student or damage to the property of another student.

C. The term “threat of violence” as used in this policy means an expression of intention to inflict injury or damage that is made by a student and directed to another student.

D. The term “intimidation” as used in this policy means a threat or other action that is intended to cause fear or apprehension in a student, especially for the purpose of coercing or deterring the student from participating in or taking advantage of any school program, benefit, activity or opportunity for which the student is or would be eligible.

E. The term “student” as used in this policy means a student who is enrolled in the Gadsden City School System.

III. Description of Behavior Expected of Students

A. Students are expected to treat other students with courtesy, respect, and dignity and comply with the rules governing student behavior. Students are expected and required (1) to comply with the requirements of law, policy, regulation, and rules prohibiting harassment, violence, or intimidation; (2) to refrain from inflicting or threatening to inflict violence, injury, or damage to the person or property of another student; and (3) to refrain from placing another student in fear of being subjected to violence, injury, or damage when such actions or threats are reasonably perceived as being motivated by any personal characteristic of the student that is identified in this policy.

B. Violence, threats of violence, harassment, and intimidation are prohibited and will be subject to disciplinary consequences and sanctions if the perpetrator of such action is found to have based the prohibited action on one or more of the following personal characteristics of the victim of such conduct:

- The student’s race;
- The student’s sex;
- The student’s religion;
- The student’s national origin; or
- The student’s disability.

IV. A series of graduated consequences for any violation of this policy will be those outlined in the rules governing student behavior or any rule or standard adopted under authority of this policy.

V. Reporting, Investigation, and Complaint Resolution Procedures

A. Complaints alleging violations of this policy must be made on Board-approved complaint forms available at the principal's and or counselor's office. The complaint must be signed by the student alleging the violation or by the student's parent or legal guardian and delivered to the principal or the principal's designee either by mail or personal delivery. At the request of the complaining student or the student's parent or legal guardian, incidental or minor violations of the policy may be presented and resolved informally.

B. Upon receipt of the complaint, the principal or the principal's designee will, in his/her sole discretion, determine if the complaint alleges a serious violation of this policy. If the principal or the principal's designee determines that the complaint alleges a serious violation, the principal or the designee will undertake an investigation of the complaint. The investigation shall be conducted in a reasonable time period based on the circumstances of the complaint. If the investigation establishes a violation, appropriate disciplinary sanctions will be imposed on the offending student(s). Other measures that are reasonably calculated to prevent a recurrence of the violation(s) may also be imposed by the principal or the school system.

C. Acts of reprisal or retaliation against any student who has reported a violation of this policy or sought relief provided by this policy are prohibited, and are themselves a violation of this policy. Any confirmed acts of reprisal or retaliation will be subject to disciplinary sanctions that may include any sanction, penalty, or consequence that is available to school officials under the rules governing student behavior. A student who deliberately, recklessly, and falsely accuses another student of a violation of this policy is subject to disciplinary sanctions as outlined in the rules governing student behavior.

D. The complaint form developed to report violations of this policy will include a provision for reporting a threat of suicide by a student. If a threat of suicide is reported, the principal or the principal's designee will inform the student's parent or guardian of the report.

Policy JD: Discipline

Status: ADOPTED

Original Adopted Date: 07/10/2012 | **Last Reviewed Date:** 07/10/2012

The Gadsden City Board of Education recognizes fully the constitutional rights of students enrolled in its schools. The Board recognizes equally, however, its obligation to establish policy related to student governance and discipline which assures that a proper atmosphere for learning will be maintained within every school serving this school district.

The Board believes that the kind of discipline to work toward in a democratic society is that characterized by self-discipline. It considers self-discipline as a learning process whereby the individual progressively learns to develop habits of self-control and recognizes his or her own responsibilities to society. Governance and discipline policies shall, therefore, demonstrate recognition both of individual student constitutional rights and of the paramount need for maintaining a proper atmosphere for learning within each school.

The Superintendent of Education, in cooperation with principals of all schools serving the Gadsden City School System, shall establish codes of conduct which state clearly and precisely in written form specified rules and regulations applicable within individual schools of this school district. Such codes of conduct shall:

1. Be based on policies of this Board of Education;
2. Be legal according to local ordinance, state law, and applicable federal statutes as well as court precedents;
3. Be based on the improvement of education within the schools. If a rule or regulation prohibits an action, the rationale of how that action would interfere with the educational process should be stated when appropriate.
4. Be as precise as possible and sufficiently adapted to the needs of youth served by the school;
5. Be in accordance with due process of law under the Fourteenth Amendment;
6. Afford each student his or her rights guaranteed by the Bill of Rights;
7. Be otherwise considered reasonable and proper; and
8. Provide clear evidence of their basis—said basis being maintenance within the school or a proper atmosphere for learning.

Principals and teachers of the Gadsden City Schools shall have both the authority and the duty to take disciplinary action whenever the behavior of any student(s) interferes with the educational learning opportunities within the schools. Prescribed procedures and forms shall be used to record disciplinary actions.

Codes of conduct in written form shall be given to students attending schools within this system. In addition, notice of the rules and regulations existing in each school may be disseminated orally and/or in written form to students and parents in a wide variety of ways (student assemblies, PTA meetings, public address announcements).

Application of disciplinary measures shall at all times reflect a fair and reasonable exercise of authority, being neither arbitrary, capricious, discriminatory, nor otherwise unreasonable. Procedural due process, to the extent of its applicability in any particular situation, shall be afforded all students prior to imposition of punishment.

No pupil shall be denied the right to participate in the school food service program as a result of disciplinary action. Reasonable detention under teacher supervision at the close of the school day shall be authorized for all schools. In case a child is to be detained after normal school hours, the parents shall be notified in advance. A child who is transported in a school bus shall not be caused to miss the bus by reason of such detention, except with prior notice to the parents.

Students unable to remain after school because of such reasons shall receive alternative punishments.

Status: ADOPTED

Original Adopted Date: 07/10/1990 | **Last Revised Date:** 07/10/2012 | **Last Reviewed Date:** 07/10/2012

Corporal punishment shall be administered on a limited basis. Corporal punishment must always be a deliberate, well-thought out action on the part of school officials. Those procedural due process safeguards outlined in this section shall be afforded all students. Corporal punishment shall only be administered by local school principals or teachers in the presence of the principal or assistant principal or their designees (any professional staff member).

Due Process Guidelines

The following procedural due process safeguards must be present in each case involving administration of corporal punishment.

Corporal punishment shall be used on a limited basis and only after other means have been tried and proved ineffective. When corporal punishment is used, the following policies shall be complied with fully.

- A. Corporal punishment shall not be administered until the nature of the offense has been explained and an opportunity to respond has been afforded the student.
- B. Corporal punishment shall only be administered by professional personnel and **MUST** be administered in the presence of the principal or assistant principal or their designees.
- C. Corporal punishment shall not be severe enough to cause bodily injury.
- D. Corporal punishment shall not be administered in the presence of other students.
- E. It shall be the responsibility of the parents to notify the principal in writing of any physical or other health limitation of the student which would render corporal punishment inadvisable.
- F. When corporal punishment is used, the principal shall write and file a complete account, listing the student's name, date, time of punishment, nature of offense, details of punishment, names of witnesses, and other pertinent information.

Policy JDB: Detention

Status: ADOPTED

Original Adopted Date: 07/10/1990 | **Last Reviewed Date:** 07/10/1990

The Board authorizes students to be reasonably detained for disciplinary purposes at the discretion of the local school principal and professional staff of individual schools. If a student is to be detained after regular school hours, the student shall be given notice of such detention in time to notify his parent or legal guardian and to arrange for necessary transportation. Students shall not be detained for more than one hour daily for disciplinary reasons. Each local school principal shall require all students detained for disciplinary purposes to be under the direct supervision of a member of the professional staff.

If students cannot remain after school for justifiable reasons, they shall be given appropriate alternative punishments at the discretion of the principal or his designee.

Reasonable detention under teacher supervision at the close of the day shall be authorized for all schools. In the case that a child is to be detained, the parents shall be notified in advance. A child who is transported in a school bus will not be caused to miss the bus by reason of such detention, except with the permission of the parents. Students unable to remain after school because of such reasons shall receive alternative punishments.

Policy JDD: Suspension of Students

Status: ADOPTED

Original Adopted Date: 07/10/2012 | **Last Reviewed Date:** 07/10/2012

AUTHORITY

The school principal or his designated person(s) has the authority to suspend students from school.

NOTIFICATION

Prior to suspension the student will be made aware of the charges and given an opportunity to respond to them. Written notice will be sent to the parent(s) or guardian stating the reason(s) such action was taken.

Immediate suspension of a student is justified when the student's presence would threaten himself or others, endanger school property, or seriously disrupt the orderly educational process. Principals are given the authority to have the law enforcement agency remove uncooperative students. If immediate removal is necessary, the parent(s) or guardian will be notified by phone or by the school personnel. The necessary notice and conference will follow within twenty-four hours of the action.

LENGTH

The suspension of a student is not to exceed five (5) days except as follows:

1. Any student suspended more than one time during a school year may be referred to the Superintendent's office for a conference prior to the student's readmission to school. Under this disciplinary action, the referral to the Superintendent's office and readmission to school must take place within an eight (8) day time frame. The referral to the Superintendent's office will not alter the number of days that the student is suspended by the principal or his designated person(s) unless extenuating circumstances agreed upon by the Superintendent and principal warrant such an alteration. For students who are suspended and referred to the Superintendent's office, the Superintendent or his designated person(s) will schedule a conference with the parent(s) or guardian and the student within seven (7) days. The problem will be resolved within eight (8) days unless extenuating circumstances, such as physical or mental examination or incarceration by court action, warrant additional time.
2. Any student who has been determined eligible for special education may be suspended or expelled, but all procedural safeguards set forth in federal and state statutes and regulations must be adhered to.
3. If an incident or violation causes the principal or his designated person(s) to recommend the expulsion of a student, the suspension shall remain in effect until such time that action upon the recommended expulsion is taken.

If a student is suspended from school and is not referred to the Superintendent's office, he must comply with the full length of the suspension unless the principal approves an alternative.

TERMS

1. If a student attends a parent school and a special school and is suspended from either school, the suspension will include both schools.
2. During the suspension period, suspended students cannot attend school functions or enter school property for any reason.
3. When a student is suspended, his teacher must be notified concerning the date of suspension and the number of days suspended. Make-up work will not be given to students who are suspended from school.
4. A student who has been suspended from school is not eligible to enroll in any other school in the system until such time that he is reinstated in the school from which he was suspended.

READMISSION

When a student returns to school after suspension, the readmission must be preceded by a conference with the principal or his designated person(s). The conference must include the parent(s) or guardian unless otherwise approved by the principal. If the student is returning after a conference with the Superintendent or his designated person(s), the Superintendent or his designated person(s) may choose to attend the readmission conference.

IN-SCHOOL SUSPENSION

In-school suspension is a structured discipline action in which students are isolated from regular classroom activities but are not dismissed from the school setting. The principal or his/her designee have the authority to assign students to the in-school suspension program for a reasonable and specified period of time.

Policy JDE: Expulsion of Students

Status: ADOPTED

Original Adopted Date: 07/10/2012 | **Last Reviewed Date:** 07/10/2012

In accordance with the Alabama state law requiring compulsory attendance, the Gadsden City Board of Education makes the final disposition of an expulsion recommendation.

The school principal is initially responsible for determining that an offense for which expulsion may be warranted has been committed. The procedures listed must be followed:

NOTIFICATION

1. Immediately following any incident or violation of school regulations which may result in a recommendation by the principal to expel a student, the principal is authorized to suspend the student for as many as ten (10) school days pending a hearing for expulsion. The principal will notify the student and the parent(s) or guardian of the suspension and will at the same time notify the student and parent(s) or guardian that the information or data obtained by the principal's investigation of the incident will be made available. This notice should be given to the parent(s) or guardian prior to the expulsion recommendation.
2. After the completion of the full investigation of a violation which may result in a recommendation for expulsion, the principal will, based on the facts, specify whether to recommend student expulsion. He will immediately notify the student and the parent(s) or guardian of the findings and the reason for the recommendation. The principal will attempt to give this notice to the student and parent(s) or guardian in a personal conference. He will also confirm this notice in a letter to the parent(s) or guardian. The principal's conclusions should be based on the documentation of the facts pertaining to the incident. Said documentation will include all information available including, but not limited to the following categories:
 - A. an operational definition of the offense(s)
 - B. a detailed description of the offense(s)
 - C. the time, date, and location of the alleged offense(s)

The above documentation will be forwarded to the Superintendent or his designated person(s).

After a review of the principal's recommendation, the Superintendent or his designated person(s) will, within the suspension period imposed, request a conference with the parent(s) or guardian of the student. The purposes of the conference are:

1. To explain the procedure orally and in writing to the parent(s) or guardian and student.
2. To determine if a mutually agreeable alternative to expulsion is appropriate. Such an alternative may be:
 - A. Placement in an alternative education center will be subject to the System Alternative School Committee, and when necessary, the IEP team recommendation. The date of admission to the center and the length of time spent at the center will be determined through the admission procedures.
 - B. Placement of special education students on a partial day schedule in an alternative school or in home study will be subject to IEP team recommendation and the System Alternative School Committee.
 - C. Voluntary withdrawal of the student from the Gadsden City system for a period of not less than one (1) semester and not more than one (1) regular school term not including summer school.
 - D. Placement of the student in a juvenile facility by a governmental agency independent of the Gadsden City School system. The School Board should concur that the action taken is adequate as an appropriate remedy for the problem. Under this arrangement, there must be mutual agreement between the School Board and the agency in terms of the extent to which the action resolves the problem. The School Board, in compliance with civil law, will have the right and responsibility to determine the action which constitutes the resolution of the problem.

HEARING

1. Upon receiving from a school principal a recommendation to expel a student, the Superintendent or his designated person(s) will provide the parent(s) or guardian an opportunity to request that the matter be resolved at an administrative hearing conducted by the Superintendent or his designated person(s).
2. During the administrative hearing, the principal or the Superintendent may conclude that disciplinary action other than expulsion is warranted because of extenuating circumstances. If the Superintendent or his designated person(s) agrees that extenuating circumstances exist, the student can be readmitted to school. Readmittance is subject to the Superintendent's approval.
3. If the matter is not resolved at the administrative hearing and the Superintendent makes the decision to

- recommend expulsion of a student, he will place the matter on the agenda for the next school board meeting, unless such a setting would be too soon to provide time for the parent(s) or guardian and student to comply.
4. The Superintendent or his designated person(s) will give notice by registered mail or hand delivery to the parent(s) or guardian that expulsion is recommended. The Superintendent's notice will state the exact time and place of the hearing and inform the student and parent(s) or guardian that the student has a right to attend the hearing, to be represented by an attorney or other representative, and to present matters relating to the recommended expulsion.
 5. The notice from the Superintendent will be delivered or mailed at least ten (10) days prior to the meeting at which the student's expulsion will be recommended. In the notice the student and the parent(s) or guardian will be informed that a desire to present matters at the hearing must be made known to the Superintendent within five (5) days after receipt of the notice, and that failure to express such a desire within the prescribed period of time will waive the right to present such matters.
 6. At the school board meeting in which expulsion of a student will be considered, the Board will first give to the principal, the Superintendent, and to any witness who might present testimony relevant to the recommended expulsion an opportunity to describe the incident or violation and to report findings which resulted in the recommendation. Each school official or witness will be limited to a reasonable amount of time in describing the incident or violation, or in presenting other testimony.
 7. Upon completion of the presentation of findings by school officials and relevant testimony by other witnesses, the student or his representatives will be given a reasonable amount of time to present any matters which the student or his representatives consider relevant to the student's expulsion.
 8. Immediately following the presentations by the student or his representatives, the Superintendent will recommend to the School Board the formal action which he deems appropriate and just. Thereupon, the School Board will vote on the action recommended by the Superintendent. If the action of the School Board is to expel the student, the action will specify a period of time for the expulsion.

TERMS

1. The expulsion of a student will prohibit the student from attending any school in the Gadsden City School System during the period of the expulsion.
 2. A student may lose his academic credit if:
 - A. He is expelled prior to taking semester examinations.
 - B. He is removed from the school attendance roll through the expulsion process.
 3. A student will not be allowed make up work if he is expelled from school.
 4. An expelled student is prohibited from being on any school system property during or after school hours (includes extra-curricular activities such as athletic events).

Policy JGFI: Health and Communicable Diseases

Status: ADOPTED

Original Adopted Date: 06/18/2001 | **Last Reviewed Date:** 06/18/2001

Gadsden City Schools shall strive to protect the safety and health of children and youth in our care, as well as their families, our employees, and the general public. Staff members shall cooperate with public health authorities to promote these goals.

The evidence is overwhelming that the risk of transmitting human immuno- deficiency virus (HIV) is extremely low in school settings when current guidelines are followed. The presence of a person living with HIV infection or diagnosed with acquired immunodeficiency syndrome (AIDS) poses no significant risk to others in school, day care, or school athletic settings.

School Attendance

A student with HIV infection has the same right to attend school and receive services as any other student, and will be subject to the same rules and policies. HIV infection shall not factor into decisions concerning class assignments, privileges, or participation in any school-sponsored activity.

School authorities will determine the educational placement of a student known to be infected with HIV on a case-by-case basis by following established policies and procedures for students with chronic health problems or students with disabilities. Decision makers must consult with the student's physician and parent or guardian; respect the student's and family's privacy rights; and reassess the placement if there is a change in the student's need for accommodations or services.

School staff members will always strive to maintain a respectful school climate and not allow physical or verbal harassment of any individual or group by another individual or group. This includes taunts directed against a person living with HIV infection, a person perceived as having HIV infection, or a person associated with someone with HIV infection.

Employment

The Gadsden City Schools does not discriminate on the basis of HIV infection or association with another person with HIV infection, in accordance with the Americans with Disabilities Act of 1990. An employee with HIV infection is welcome to continue working as long as he or she is able to perform the essential functions of the position, with reasonable accommodation if necessary.

Privacy

Pupils or staff members are not required to disclose HIV infection status to anyone in the education system. HIV antibody testing is not required for any purpose.

Every employee has a duty to treat as highly confidential any knowledge or speculation concerning the HIV status of a student or other staff member. Violation of medical privacy is cause for disciplinary action, criminal prosecution, and/or personal liability for a civil suit.

No information regarding a person's HIV status will be divulged to any individual or organization without a court order or the informed, written, signed, and dated consent of the person with HIV infection (or the parent or guardian of a legal minor). The written consent must specify the name of the recipient of the information and the purpose for disclosure.

All health records, notes, and other documents that reference a person's HIV status will be kept under lock and key. Access to these confidential records is limited to those named in written permission from the person (or parent or guardian) and to emergency medical personnel. Information regarding HIV status will not be added to a student's permanent educational or health record without written consent.

Infection Control

All employees are required to consistently follow infection control guidelines in all settings and at all times, including

playgrounds and school buses. Schools will operate according to the standards promulgated by the U.S. Occupational Health and Safety Administration for the prevention of blood-borne infections. Equipment and supplies needed to apply the infection control guidelines will be maintained and kept reasonably accessible. The supervisor shall implement the precautions and investigate, correct, and report on instances of lapse.

A school staff member is expected to alert a person responsible for health and safety if a student's health condition or behavior presents a reasonable risk of transmitting any infection.

If a situation occurs at school in which a person might have been exposed to an infectious agent, such as an instance of blood-to-blood contact, school authorities shall counsel that person (or, if a minor, alert a parent or guardian) to seek appropriate medical evaluation.

HIV and Athletics

The privilege of participating in physical education classes, athletic programs, competitive sports, and recess is not conditional on a person's HIV status. School authorities will make reasonable accommodations to allow students living with HIV infection to participate in school-sponsored physical activities.

All employees must consistently adhere to infection control guidelines in locker rooms and all play and athletic settings. Rulebooks will reflect these guidelines. First aid kits must be on hand at every athletic event.

All physical education teachers and athletic program staff will complete an approved first aid and injury prevention course that includes implementation of infection control guidelines. Student orientation about safety on the playing field will include guidelines for avoiding HIV infection.

HIV Prevention Education

The goals of HIV prevention education are to promote healthful living and discourage the behaviors that put people at risk of acquiring HIV. The educational program will:

- be taught at every level, Kindergarten through grade twelve;
- use methods demonstrated by sound research to be effective;
- be consistent with community standards;
- follow content guidelines prepared by the Centers for Disease Control and Prevention (CDC);
- be appropriate to students' developmental levels, behaviors, and cultural backgrounds;
- build knowledge and skills from year to year;
- stress the benefits of abstinence from sexual activity, alcohol, and other drug use;
- include accurate information on reducing risk of HIV infection;
- address students' own concerns;
- include means for evaluation;
- be an integral part of a coordinated school health program;
- be taught by well-prepared instructors with adequate support; and
- involve parents and families as partners in education.

Parents and guardians will have convenient opportunities to preview all HIV prevention curricula and materials. School staff members shall assist parents or guardians who ask for help in discussing HIV infection with their children. If a parent or guardian submits a written request to a Principal that a child not receive instruction in specific HIV prevention topics at school, and assures that the topics will be discussed at home or elsewhere, the child shall be excused without penalty.

The education system will endeavor to cooperate with HIV prevention efforts in the community that address out-of-school youth and youth in situations that put them at high risk of acquiring HIV.

Related Services

Students will have access to voluntary, confidential, age and developmentally appropriate counseling about matters related to HIV infection. School administrators will maintain confidential linkage and referral mechanisms to facilitate voluntary student access to appropriate HIV counseling and testing programs, and to other HIV-related services as needed. Public information about resources in the community will be kept available for voluntary student use.

Staff Development

All school staff members will participate in a planned HIV education program that conveys factual and current information; provides guidance on infection control procedures; informs about current law and state, district, and school policies concerning HIV; assists staff to maintain productive parent and community relations; and includes annual review sessions. Certain employees will also receive additional specialized training as appropriate to their positions and responsibilities.

General Provisions

On an annual basis, school administrators will notify students, their family members, and school personnel about current policies concerning HIV infection, and provide convenient opportunities to discuss them. Information will be provided in major primary languages of students' families.

This policy is effective immediately upon adoption. In accordance with the established policy review process or at least every three years, the superintendent shall report on the accuracy, relevance, and effectiveness of this policy and, when appropriate, provide recommendations for improving and/or updating the policy.

The goal is to minimize distractions, protect instructional time, reduce academic dishonesty, and support a safe learning environment. This policy is based on the values of digital responsibility and maintaining a space where students can learn without distractions.

General Guidelines

Students may not use cell phones, smartwatches, tablets, gaming devices, AirPods, or other personal devices that have the capability of exchanging voice messaging or other data during instructional time.

Devices must be turned off and stored in lockers, vehicles, or designated areas—not on the student.

Device use before/after school, during PE, or at lunch is not allowed unless with permission.

Discipline

First Offense – The device will be taken, and a parent/guardian will be contacted to pick up the device in person. The parent/guardian will sign a Cell Phone Policy Consequences Form.

Second Offense –The device will be taken, and a parent/guardian will be contacted to pick up the device in person. The student will receive 2 days of ISS/Detention.

Third Offense—The device will be taken, and a parent/guardian will be contacted to pick up the device in person. The student will receive 2 days OSS/Extended ISS.

Fourth Offense—The device will be taken, and a parent/guardian will be contacted to pick up the device in person. The student will receive 3 days OSS/Extended ISS. The parent/guardian will be referred to the District Attorney's Office.

Overview

The Gadsden City Board of Education (the “Board”) has adopted the Gadsden City Board of Education Drug-Free School Policy, (the “Policy”), a random alcohol and drug testing policy to promote the safety considerations noted herein and to deter the use of alcohol and drugs among high school students.

This policy will apply to three categories of students: (1) Activity students, consisting of students participating in (a) athletics or cheerleading (defined as any student, male or female, in grades seven through twelve, who is a member of any Board sponsored school sports team or cheerleading/dance squads), and (b) other school related extra-curricular activities (defined as any student male or female, in grades seven through twelve, who is a participant of a Board sponsored extra-curricular activity during the school day or after school); (2) Parking students, consisting of students operating or parking a motor vehicle on campus (defined as any student grades nine through twelve who operates or parks a motor vehicle “at school” as defined herein); and (3) Volunteer students who have been voluntarily added to the random pool with the consent of his or her parents.

Participation in extra-curricular activities or operating/parking a motor vehicle on campus are privileges, not rights. Students in these activities represent the school and the school system in interscholastic competition, public performances, and various other activities. They are role models for other students. Their use or abstinence from the use of alcohol or illegal drugs is likely to influence the choices of other high school students. In addition, the use or abuse of alcohol and/or illegal drugs by athletes or cheerleaders is likely to increase student injuries to the user or others with whom he or she is playing. Student drivers are inexperienced and pose a substantial risk to the safety of themselves and others should they operate a motor vehicle on campus or elsewhere while under the influence of alcohol or illegal drugs.

Statement of Need

Certainly drug and alcohol abuse are an on-going concern for parents, mental health professionals, the judicial system, and the Board of Education. Prevention and treatment are the primary focus of this policy.

Drug use interferes with a student's education which is the primary goal of the school. Even small quantities of alcohol, illegal drugs, or abused prescription drugs can impair judgment and reflexes, which can create unsafe conditions for students. Students using prohibited substances are a threat to other students and themselves and may make injurious errors.

Policy Objectives

1. To create and maintain a safe, drug-free environment for all students in the Gadsden City Schools.
2. To encourage students with a dependence on or addiction to alcohol or other drugs to seek help in overcoming the problem.
3. To reduce the likelihood of incidents of accidental personal injury and/or damage to property.
4. To minimize the likelihood that school board property will be used for illicit drug activities.
5. To educate parents and students to the warning signs and dangers of alcohol and illegal drugs.
6. To reduce behavioral problems in the classroom and promote the general health and well being of all students.

Substance abuse can be a serious threat to the school system, its students, visitors, and employees. It is the belief of the Gadsden City Board of Education that the benefits derived from the policy objectives outweigh the potential inconvenience to the students who will be subject to this Policy. The Board earnestly solicits the understanding and cooperation of all school staff, students, and parents in implementing this policy.

Enforcement

In an effort to achieve the policy objectives described herein, the Board reserves the right to require all Activity, Parking, and Volunteer students to submit to random drug tests to maintain safety and security.

Pursuant to Board Policy and regulations, students subject to this Policy may be tested on a random basis without advance notice. Once a student is placed in the Random testing pool the student is subject to testing for the remainder of the year.

Any student with a positive test, including a no-contact positive (as defined herein) for alcohol or drugs which is confirmed by the Board's Medical Review Officer (MRO), will be subject to certain consequences which include immediate suspension from student activities. Refusal to submit to testing or to cooperate with the Board in any test investigation will result in immediate suspension from participating in extra-curricular activities or parking for 365 calendar days. A student's privileges will be reinstated pursuant to the Consequences section of this Policy.

No Activity or Parking Student testing positive, refusing to test, refusing to cooperate with testing, or being in violation of this policy will be penalized academically or for non-participation in after school extra-curricular activities.

Confidentiality

All information, interviews, reports, statements, memoranda, and test results, either written or otherwise, received by the Board through its alcohol and drug testing program are confidential communications and may not be used or received in evidence, obtained in discovery, or disclosed in any public way or private proceedings except under the following circumstances:

1. As directed by the specific, written consent of the parent/guardian authorizing release of the information to an identified person.
2. To an Activity, Parking, or Volunteer Student decision-maker in a lawsuit, grievance, or other proceeding initiated by or on behalf of the student.
3. When compelled to do so by valid federal or state laws or order from a court of competent jurisdiction.

Any questions should be directed to the person(s) assigned as the Board's Drug Testing Coordinator(s).

Any employee responsible for a breach of the confidentiality provisions of this policy shall be subject to appropriate disciplinary measures, including termination if warranted by the circumstances.

Clarification

This policy neither circumvents nor is intended to be used in place of Board Disciplinary Policy and School Rules pertaining to the use, possession, distribution, or manufacturing of alcohol or other drugs at/or away from school, School Board property, or at school sponsored events.

If a student is in violation of such disciplinary policies and rules, disciplinary consequences will be through normal school channels associated with said policies and rules. The consequences under this Policy become secondary.

Alcohol and Drug Testing

An integral part of the overall substance abuse policy will be the use of drug and alcohol testing. Drug and alcohol testing have been demonstrated to be accurate methods of determining the presence or absence of alcohol or illegal drugs in a person's body. Breath, oral fluid, hair, or urine can be used for testing.

Procedures

I. General Policy

Practical experience and research have proven that even small quantities of illegal drugs, abused prescription drugs,

or alcohol can impair judgment and reflexes which can create unsafe conditions for students. Even when not readily apparent, this impairment can have serious results for students engaged in sports or other extra-curricular activities. Drug and alcohol-using students are a threat to other students and themselves, and may make injurious errors. For these reasons, the Gadsden City Board of Education has adopted a policy that all Activity Students, Parking Students, and Volunteer Students be subjected to random drug testing to ensure that they are free from the effects of alcohol and/or the presence of drugs, unless used as prescribed by a physician.

II. Drug Use/Distribution/Impairment/Possession

All Activity Students, Parking Students, and Volunteer Students are prohibited from using, possessing, distributing, manufacturing, or having controlled substances, abused prescription drugs, inhalants, or any other mind altering or intoxicating substances present in their system while participating in extra-curricular activities or while driving or parking at school.

III. Alcohol Use/Possession/Impairment

All Activity Students, Parking Students, and Volunteer Students are prohibited from possessing, drinking, or being impaired or intoxicated by alcohol while participating in extra-curricular activities or while driving or parking at school.

IV. After School Hours Conduct

After school hours use of drugs, alcohol, or any other prohibited substances, including inhalants, by a student is unlawful and may result in a positive test, in violation of this policy.

V. Prescription Drugs

The proper use of medication prescribed by a physician is not prohibited; however, the Gadsden City School System prohibits the misuse of prescribed (or over the counter) medications and requires all Activity Students using drugs at the direction of a physician to notify their school nurse where these drugs may affect their performance, such as by causing drowsiness.

VI. Procedure for Current Extra-curricular Students and Parking Students and Volunteer Students

A. Random Testing

The Board will conduct random unannounced screening of Activity Students, Parking Students, and Volunteer Students. A randomizer computer program will be utilized to provide computerized random sample lists to the Drug Program Coordinator. The Activity Students, Parking Students, and Volunteer Students randomly selected will be required to report to the Board-designated collection site for testing.

VII. Testing Procedures

A. General Guidelines

The School Board and its laboratory shall refer, when prudent, to the guidelines of the Federal Department of Transportation, Procedures for

Transportation Workplace Drug and Alcohol Testing Programs, 49 C.F.R. Part 40 when a particular topic or subject is not specifically covered by the policy or procedures adopted by the Board. Relative to the protocols for determining diluted, substituted, or adulterated specimens, the Board will refer to Part 40 for guidance.

B. Substances Tested

Activity Students, Parking Students, and Volunteer Students may be tested for: alcohol, cannabinoids, cocaine, methamphetamine, morphine, amphetamines, vicodin, percodan, percocet, lortab, oxycodone, or any substances listed as a controlled substance under ALABAMA CODE 1975, § 20-2-20 through 20-2-32 and listed under schedules I through V without advance notice as part of a test performed by the Board for safety purposes. Such tests will be coordinated with the Coordinator.

VIII. Collection Sites

The School Board will designate collection sites where students may provide specimens. Collections primarily will be

conducted on-site at the appropriate designated school.

IX. Collection Procedures

The Gadsden City School System and the laboratory have developed and will maintain a documented procedure for collecting, shipping, and accessing specimens. The collection process shall be conducted so as to protect the privacy of the student. The Board and the laboratory will utilize a standard Custody and Control Form for all student testing. The Company will utilize a standard Breath Alcohol Testing Form for all student alcohol testing. A tamper-proof sealing system, identifying numbers, labels, and sealed shipping containers will be used for specimen transportation.

Collection sites will maintain instructions and training protocol that emphasize the responsibility of collection site personnel to protect the integrity of the specimen and maintain as proper a collection procedure as reasonable under the particular circumstances. All students selected for testing will also be required to execute a Student Consent and Release Form.

X. Evaluations and Return of Results to the Board

The laboratory will transmit directly (by fax, mail, or computer but not normally over the telephone) the results of all tests to the Board's MRO. The MRO will be responsible for reviewing test results of students and confirm that the individuals testing positive have used drugs or adulterated the specimen in violation of the School Policy. Prior to advising the Board of the test result, the MRO shall give the student and his or her parent(s) an opportunity to discuss the result either in person or over the telephone and provide evidence that the student was taking a prescription medication that could also have produced a positive drug test result, or if for some other reason in accordance with Part 40 procedures allow the MRO to determine that the test result is not as the result of violation of this policy. At this point, parents may request to have the test verified by a confirmation test. The student will have 24 hours to report to an off-campus lab to provide an additional sample for analysis. After verification of the second test, the MRO shall then promptly personally telephone and inform the Drug Program Coordinator which students had confirmed positive test results that had no legitimate medical explanation. The School Drug Coordinator will be informed of the confirmed positive and will then schedule a conference between the student and parent(s) or legal guardian(s) to discuss the positive test result and appropriate interventions and consequences. ***MRO involvement may be omitted in the case of a positive result for cannabinoids (THC/marijuana), since there are no legal prescriptions that can account for such results. In these cases, parents will be informed by school officials of their 24 hour retest option.***

XI. Release of Test Results

All information, interviews, reports, statements, memoranda, and test results, written or otherwise, received by the Board through its drug and alcohol testing program are confidential communications and may not be used or received in evidence, obtained in discovery, or disclosed in any public or private proceedings except in accordance with this Policy and the Student Consent and Release Form.

However, all students selected for testing will be required to execute a Student Consent and Release Form permitting the Board to release test results and related information to the school officials who have a need to know.

Parents or guardians will be informed of confirmed positive test results by the School Drug Coordinator.

XII. Consequences

For any violation of the policy, including testing positive in a confirmation test, testing positive for adulteration, refusing to submit to screening, refusing to execute a release, or refusing to cooperate with an investigation by the administration, the consequences for said violations are as follows (These consequences are applicable to all students who volunteer to be drug tested):

Section 7. Challenges to the Plan

In the event the Student and/or his parent or guardian object to conditions of the Plan or the application of a sanction, a challenge must be submitted in writing to the Superintendent or his designee to consider whether adjustment of the Plan or response modification is warranted. The Superintendent's decision shall be final. A response that constitutes disciplinary action will adhere to the applicable School disciplinary policies and procedures and the Student will be afforded the process due thereunder.

Section 8. Confidentiality

Information received by school officials or staff related to the Student's delinquent status must be treated as confidential from other students, staff members, officials and stakeholders. be subject to school discipline and/or criminal charges as provided by law.

Section 9. Retaliation

Members of the Supervision Team should make every effort to treat the Student with the same respect and courtesy to which every student is entitled. The Team is reminded that the Student has been deemed by the juvenile court as not likely to reoffend and should be encouraged to fully integrate into the student body as a successful student.
